That monkey was sweating it's ass off from the scorpion sting, Blood Pressure was so high the monkey fainted and lost control of it's limbs and balance. This is quality video.

OMG the 1st couple of minutes are priceless. I mean I enjoy pure monkey carnage as much as the next person but there is something so special about a rat on the way to becoming irreversibly mentally damaged that warms my heart!

What makes us human is the fact we evolved past these shit eating rats! We developed art, literature, ordered societies, technology to address our condition if we choose to use it. Therefore, since we are dominant species, we have the right to use our will on these rats as we see fit. So that Karens is what makes us human.

1-Dog shock collar. Screaming pain shock feedback looping fun. 2-Electric popcorn popper. Put baby in under lid and turn on. Agitator will spin around causing the monkey to move and the hot plate will burn whatever touches it. Throw in popcorn for an extra treat. 3-needles, nails, and pins.. get em in the body. Clamp 1 of the metal piercings (-) and with the other side of the wire (+) touch other metal piercings. Tingling traveling sensational. 4-Starve a mobkey, then super/hot glue, seal its ass. Its at this point food can be reintroduced.. with a chocolate laxative dessert. 5-string up the monkey by its hands. Use fishing hooks and pierce into feet, chest, floppy nutsack..and then begin adding weight. I'm picturing a hook with a bucket and just adding sand until something gives. 6-After creating two stylish, foil vests, complete with foil belt, on two different monkies, hook up one vest to 1 side (+) of a car battery and the second vest the 2 side (-) of the same car battery. Then let the two monkies rush to one another in what I'm hoping would be an electrifying hug. 7-seal its mouth and return to its mom. Apparently that's all I had for that one. 8-force feed it a lot of antacids...and then a syringe of water. I'm curious what a monkey volcano would look like... 9-tie up, drizzle in honey, place on ant hill. Enjoy! 10-syringe it full of fuel. Roll it in it, and make a line of gas between the mother and the baby and light. Place the baby on one side of the fire and with the mother on the other, ideally the baby will rush to the mother (through the fire) igniting what I'm gonna call a macaque-ma'bomb.

If I were a VO, I would slather the bebe with depilatory cream, just leave it to irritate the skin and and cause discomfort without actual harm. Then I think hairless alien bebe would be more fun to play with but wouldn't have to worry about the burnt monyet smell ^^

Can you get me back on [REDACTED]

4/21/2023 4:30:40 PM(UTC+0)

From: [REDACTED]

Sure. You gotta message me when I ask everyone to. It's because I need to know what's going on, make sure I know who's leaking info etc because I don't want to keep getting messages from other people who love drama (not to be named) just because I said or did something in my own group.

4/21/2023 11:14:24 PM(UTC+0)

From: 5816250446 Simian Sam (owner)

Ya, I get you. It's pretty tiresome to even be reading the crap no less being the target of it. You know, this is a pretty simple thing, hating macs, because there is a lot to hate. But those who create drama, they aren't us. They're here because they're terrible people just need to seek attention. I guess I misinterpreted your directions. I just responded to the group chat and not DM'ed you. My bad. If you can see your way to get me back in I would be grateful. BTW I'm working on creating original content again. I want to buy some equipment for the VO. When the time comes it will be tightly controlled as possible. It will be on my own server with only 7 proven people allowed tops. No more. The content will be free to only those 7. The first addition of people will be about 4. The remaining three will be added only after unanimous consent of the 4. Public release of my materiel will happen after new content has aged three months and at my sole discretion, I believe this will keep the potential for frauds out. Naturally you will be in the first four.

4/23/2023 5:30:27 PM(UTC+0)
